Dear Friends of HumaneCNY:

Since I became HumaneCNY's director in June, things have been very busy at the shelter. We have taken in 290 animals and adopted out 321! We are well on track to help 600+ animals this year.

Rescuing animals in need is never easy. Just when you think you've seen the worse, an even sadder situation comes along. On October 8th we received a phone call that there were 25 dogs, one cat, and six birds in need of rescue immediately. One elderly owner had died a few months ago and the other was hospitalized. We dropped everything and made the hour-long drive to help a team of rescuers get the animals out of the house. Our dedicated staff stayed late into the night getting everything set up for the 15 dogs and cat that we were returning with. One of our veterinarians even came over to meet us and do a quick evaluation. Four dogs were very sick and unfortunately we couldn't save two of the four as they were suffering terribly. The other two went immediately to foster homes to be cared for and monitored. Over the next couple weeks all the dogs had their vet appointments. The majority needed multiple medications, and all of them are now scheduled for dental extractions. In addition, one dog, Fiona, needs a cancerous lump removed and another, Flora, needs double cherry eye surgery. Miraculously, the rescued cat, Pumpkin, is in great shape and is ready to find her new home.

As a shelter that relies upon donations and event fundraisers to exist, it's all because of donors like you that we can give each and every animal the medical care and loving attention it needs. You give them all hope for a future full of love and happiness.

Thanks to our friends at Staffworks, gifts we receive and are dated between November 30 and December 31 will be matched! This is especially important since COVID-19 restrictions are expected to impact our in-person event fundraisers for months to come.

I hope you'll send a special gift today to show all of the animals at HumaneCNY how many people are out there rooting for them, regardless of what paths their lives take.

Best regards,

Maureen Davison
